# LUXE

## Frank Gambale

SIGNATURE MODEL

“This guitar is so balanced and resonant right across the whole range on the fret board. The guitar rings like a bell and the tone and volume beautifully balanced through the range of the instrument. I think it’s the wonderful combination of woods and the classical guitar body dimensions that is a powerful combination that just works!!”

**Frank Gambale**

Developed in conjunction with legendary guitarist Frank Gambale, this is a true signature model in that the artist had a great deal of input on each detail of the guitar. Ideal for high-speed soloing, this innovative acoustic-electric guitar also features custom wooden rosette and custom fingerboard inlay designed by Frank Gambale himself.

# LUXE

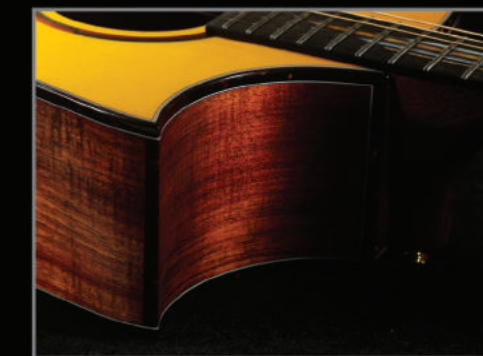

Solid Adirondack Spruce Top  
 Flamed Blackwood Back and Sides  
 L.R. Baggs® EAS-VTC EQ  
 Graphtech® Black TUSQ Nut and Saddle  
 Mahogany Neck  
 Ebony Fingerboard  
 Ebony Bridge  
 Gold Tuners  
 D’Addario® Custom Gauge Strings  
**Hard Case Included**

The custom extra light gauge specified by Frank Gambale facilitates fast soloing on the high frets without loss of volume or projection.

Art deco styled headstock with abalone inlay of Frank Gambale logo and exotic tri-gem decoration.

91-106mm body depth gives ideal resonance of each and every note played.

THE  
**RITHIMIC**

“After playing the same bass for so many years I was not sure that another builder could develop something that I would love. As soon as I played the very first Cort Rithimic bass I was wowed. I could not believe how perfectly this bass turned out. This is an astonishing instrument that Cort has built for me.”

**Jeff Berlin**

Jeff’s basses have always been simple and vintage inspired, but then tweaked to his exact specifications to make them something special. The Rithimic provides that same balance between vintage, simple and well evolved for today’s playing demands.

# X

SERIES

The sleek and ergonomic body shape on the X Series is the first thing that you will notice, but as you dig deeper you will see a series built to rock. Thanks to the electronics options and exceptional features these guitars are versatile and ready to excel at fusion, prog, classic rock, and metal. X marks the spot!

PLAY SMARTER  
NOT HARDER 😊

**EASIER TO FRET**  
Custom action setup and shorter scale length reduce string tension and make the strings easier to press.

**EASIER TO CHORD**  
The distance between frets is reduced just enough to help you better reach and master each and every chord.

**EASIER TO HOLD**  
A specially designed neck profile and slimmer body provide maximum comfort and a more even tone.

## EasyPlay

Collection

We asked guitarists what their biggest obstacle was while learning to play. Answers ranged from difficulty learning complex hand mechanics to painful fingertips to overall instrument size, weight, and cost. We took these problems to our builders and design team and challenged them to find a total-guitar solution. There are no shortcuts to success when learning to play guitar, but there are a few things that make the journey a little easier, and we included them all in our new EasyPlay guitars. When you're learning guitar, play smarter, not harder.

# SFX

## SERIES

As Cort's vision of the modern acoustic-electric, the SFX Series features Cort's own slim body shape (83-83mm) with cutaway, modern V-shape neck profile for enhanced playability and speed, arched back for improved resonance, jumbo frets and Fishman electronics. The SFX is for the thoroughly modern player who isn't bound to tradition.

# JADE

## SERIES

Using a smaller classical-size body, the Jade Series was developed with a particular group of players in mind – female musicians. With its distinctive and special colors, the Jade Series not only looks pretty, but delivers a great balanced sound and easier playability with a thinner neck and deeper cutaway for experienced players and beginners alike.

## Classic

### SERIES

The Classic Series features two distinctive types of model. The traditional style AC models have been re-engineered to improve resonance for an authentic classical guitar sound while the CEC models feature slim body with cutaway, 45mm nut width and electronics for steel-string players who love the nylon-string sound.

## ACOUSTIC BASS

### SERIES

Cort acoustic bass guitars feature a deep jumbo body (depth of 110-135mm) to deliver a big natural acoustic sound with plenty of volume that will anchor the low-end in any musical setting. Fishman electronics facilitate a great amplified sound as well.
